

Update: April 2018

Charrette Report Is Now Available!

by Sue Roethel

The final report of the Port of Rochester and Charlotte Community Charrette Day is now available on the CCA website: <http://www.charlottecca.org/community-development/charrette-process/>. This comprehensive, 88-page report is a documentation of the community-planning day that was held on November 4, 2017. It outlines the geographical area that was studied and provides a historic and present-day context for each of the six designated areas that were focused on within the study area. It also includes the ideas and original drawings that resulted from each of 12 different workgroups.

A new post-charrette steering committee of about 40 community volunteers has formed and will be working intensively over the next several months to create a new vision plan for Charlotte. The vision plan will be published and become the blueprint of what the community wants to see in development for the study area. The work involves analyzing the charrette report to identify common and unique ideas, investigate feasibility and develop and long- and short-term goals for making them become a reality.

Please follow the steering committee updates via the CCA website at <http://www.charlottecca.org/community-development/charrette-process/>. You can also share your feedback and ideas by contacting infocharlottecca@gmail.com.
