Where In Charlotte?

From Burley Road to Beach Avenue, or from the railroad tracks to the Genesee River, if you live within the boundaries on this map, you are a resident of Charlotte that was once a separate village known as the Coney Island of the West. Did you know that, after decades of debate, approval for the annexation of Charlotte into the City of Rochester was completed 100 years ago, in April, 1915, although not effective until December 31, 1915? Did you attend school here? #42 or #38? Charlotte? Holy Cross? Did you attend CTC dances? Play baseball with CYAA? Work as a lifeguard, Abbott's or LDR? Remember St. Anthony's Day? Tell us your stories from then or now. We'd love to share some trivia with our members. The village of Charlotte was, and still is, known for its lively history. If you are a resident of Charlotte, please consider getting involved with your neighbors to build a strong community that is a safe, vibrant and inviting place to live, work and visit. **(See page 2 for more info on how you can help.)** Contact us with questions, information or just say Hi! at ccanewsny@gmail.com.

Calling All CCA Members!! YOUR time and talents are needed!

The CCA board has formally approved a plan of work for four committees:

Communications; Not-for-Profit Status; Safety and Security; and Planning and Zoning.

In order for these plans of work to actually happen, we need a few dedicated, reliable members to help us achieve the goals outlined for each Committee. Some committees are on hold until vacancies are filled.

We need your time, creative ideas and talent to make great things happen in Charlotte! Please consider volunteering to chair one of the committees and work closely alongside a Board Liaison. If you're unable to chair, you can still be a valued committee member and an important part of helping our community grow!

To find out more, please contact the CCA board member listed below at info@charlottecca.org.

SPECIAL COMMUNITY MEETING

March 30th, 7 PM at the Roger Robach Center

All community members are invited to attend this special meeting of the Charlotte Community Association (CCA). The purpose of this meeting is to present valuable information that will help the community move toward a shared vision regarding development at the Port of Rochester and elsewhere in Charlotte for the future. **Voting CCA Members should plan to attend!**

Joni Monroe, *Executive Director* and Roger Brown, *Creative Consultant of the Community Design Center Rochester (CDCR)*
Present

THE CHARRETTE AND COMMUNITY VISION PLAN PROCESS

The Community Design Center of Rochester (CDCR) is a non-profit organization of design professionals promoting healthy, sustainable *communities* by encouraging quality design of the built environment and thoughtful use of built and natural resources. They do this by providing technical assistance and access to educational and training opportunities that increase awareness about the built environment, the impact of design and the importance of good urban planning.

A charrette is an intensive planning process that brings together community members and design professionals to create collaborative solutions for cities, towns, and neighborhoods. The Community Design Center is committed to the charrette process as the antidote to the conventional, top-down planning practices that usually generate controversy and delay. We can help you build public trust and support for transformative community change!

At the end of the process, you will have a Vision Plan for your community that you can take to government and foundation funders when you apply for construction grants to transform your environment. Communities in and around Rochester have raised millions of dollars for construction projects by submitting Vision Plans created with the Design Center. The CDCR and its team of volunteer design professionals will help you organize, plan, and facilitate your community design charrette. For more information, please visit <http://rrcdc.org/index.html>.

Reasons To Attend CCA Meeting on March 2nd!

We were fortunate to be able to reschedule our February guest speakers, so please venture out for the March 2nd CCA meeting to hear Rochester **City School District Superintendent, Bolgen Vargas** speak on his recommendation to close Charlotte High School. A public meeting was held in December at Charlotte High School and reported on in the January Charlotte Community News.

Also, **Mitch Rowe, Director of Planning & Zoning** for the City of Rochester, will provide an update on Edgewater Resources plans now that the plans are with his office.

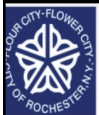

The meeting begins at 7pm sharp in the Roger Robach Community Center, 188 Beach Avenue.

New York State Senate Update

By Senator Joe Robach

Governor Andrew Cuomo has unveiled his Executive Budget proposal, marking the official start of the 2015-16 State Budget negotiation process. From helping to create new job opportunities, to reducing the tax burden on hardworking men and women, to ensuring that we get our fair share of state school aid, I will be working tirelessly to make sure that the final budget we enact will provide our community with the resources and funding it needs to continue moving forward.

To help keep you well-informed on budget-related developments going forward, I have created a State Budget informational page on my web site, www.robachnysenate.gov. The page provides links that will let you review specific details of the Governor's proposal, and will also keep you posted on new developments related to the budget review and negotiation process. It also allows you to share your views on the budget, and to let me know what issues are important to you, your family, and our local community. As always, I truly appreciate your input and feedback.

I look forward to speaking with and listening to all of my constituents about their needs, concerns and priorities as we review the Governor's plan and put together a final State Budget for 2015-16. By working together, I am confident that we can develop and enact a soundly-balanced plan that helps to ensure a bright future for our community.

Monroe County Legislative Update

From Legislators Tony Micciche and Brian Marianetti

Last year, Monroe County began the process of building a new downtown campus of Monroe Community College (MCC) which has outgrown its current facility. The new site, located on State Street, will be renovated to accommodate a new, approximately 250,000 square foot downtown campus, with room for classes, parking and other amenities vital to MCC Operations.

At the February meeting of the County Legislature, we were proud to vote for a Project Labor Agreement (PLA) for the MCC Downtown Campus Project. This agreement between local trade unions, Monroe County and the developer provides uniform work conditions, cost savings, labor-management harmony, and protection against work disruptions arising out of labor disputes. The developer agrees to use exclusively union labor and Monroe County could save nearly \$650,000 by agreeing to the contract in advance. This is the fourth time the County has agreed to a PLA for a major project in recent years, and we are proud to support one for this project. We understand the importance of guaranteed contracts for unionized labor, and in the case of this construction project, the County is also able to save taxpayer money. It is a true win-win scenario for all sides.

Our vision for the residents of Charlotte is to have a vibrant campus, close to home, filled with students pursuing education which provides a path to a better future. It is a project that we are very excited about and we anticipate its opening in 2017.

We are proud to represent the Charlotte community in the County Legislature. If you ever have any questions, please feel free to contact our office by phone at 753-1922, or by email; Brian at monroe7@monroecounty.gov, or Tony at monroe26@monroecounty.gov.

2015 City of Rochester Owner-Occupant Roofing Program

The City of Rochester is offering financial assistance up to \$12,000 for roof replacement for owner-occupied single-family home owners located in the city of Rochester. The assistance will cover the cost of a roof replacement and other related repairs such as gutters, downspouts, roof flashing, and minor chimney repair. Other work repairs not related to the roof are ineligible. Preexisting damages to the interior of the property caused by a leaking roof are not covered through the program. The work will be undertaken by an approved city contractor. Owners are not allowed to complete their own work.

There will be two rounds of funding available for the program. The first round will be "quadrant-based" where 75 names (pre-applications) will be randomly selected from a pool of applicants at each City Neighborhood Service Center. A total of 30% of the selections will be senior citizens. The open application period for this round will run from: February 18 – March 17, 2015 with the drawing to be held on March 18, 2015.

The second round of funding will be "city-based" where names will be selected from a city-wide pool of applicants at a central location to be announced. The open application period for this round will run from May 19 – June 18, 2015 with the drawing to be held on June 19, 2015.

Interested homeowners must submit a pre-application at their nearest Neighborhood Service Center between February 18 and March 17. Charlotte residents go to the Northwest Center at 71 Parkway, 428-7620 to apply. More information can be found on the CCA website, www.charlottecca.org, or by calling the NW Neighborhood Service Center Administrator, Ron Penders, 585-428-7620.

Lake Ontario Plan Update From Matt Haag, Council Member-at-Large, City of Rochester

Currently, the way in which the St. Lawrence River and Lake Ontario are regulated with regard to water levels and flow, are based around the science of the 1950's. Roughly 15 years ago, the Canadian and United States Governments, along with environmental experts, the public, and other stakeholders, launched an initiative to study what was currently being done and what could be improved. Last year, the International Joint Commission issued the report and made the recommendation that the Plan be implemented immediately. The new plan which is based on updated science, would assist with both the flow and levels of the St. Lawrence River and Lake Ontario. According to Matt Haag, Council Member-at-Large for the City of Rochester, "Plan 2014 is balanced, thoughtful, and uses the latest science to manage the waters of Lake Ontario. There are many people and interests who rely on a healthy lake, and Plan 2014 is accountable to all of them."

Charlotte High School would like to congratulate our seven students who graduated in our mid-year Commencement Ceremony that was held on February 7th at Franklin High School. We're now hard at work guiding our upcoming June graduates and helping them with college applications for the fall. Our Junior Breakfast will be held on February 13th. During this breakfast we provide next year's graduation candidates with important planning information for the remainder of the year along with basic planning steps for next year.

Most of our students sat for January Regents Exams. Given the difficulty of the exams, we encourage them to take them in January and possibly "get them out of the way" for the hectic end of the year. For students who don't score as high as they may like, they are welcome to take them again in June.

Our students have taken some really great field trips lately. **Mr. Elliott's** AP English Literature students went to GEVA Theater to see a performance of "Little Shop of Horrors" on February 12th. Other classes have visited the RMSC Planetarium, the George Eastman House, the Hochstein School of Music and MCC's Brighton Campus.

CHS is fortunate to have four (wonderful) Hillside Work Scholarship advocates on site at all times. Hillside is a mentoring program to help students stay on track for graduation. There are attendance and grade requirements to enroll in the program and once enrolled students can receive afterschool homework help, job readiness training and just general support. Many of the kids get jobs at Wegmans through their enrollment in the program. They participate in a lot of fun extra-curricular activities too. Recently they went to see "Pippin" at the Auditorium Theatre and are going there again to see "Annie". Cooking classes, bowling excursions – they do it all. It's a great program for our students and we're thankful to have Hillside as a Community Partner!

We'd like to send kudos to **Mrs. Beasley's Environmental Club**. Her "Green Team" has many "jobs" around the school including school beautification and recycling. They create posters & send e-mails reminding us all how to conserve energy in this very large building. They go through the building before school breaks and turn off lights, unplug Smart boards and small appliances, staying on top of the important job of energy conservation. This conservation is entered into a spreadsheet which generates funds for our school from the RCSD's Green Initiative. This very worthy club not only teaches important good habits and life lessons – the kids really have fun doing it. Many thanks to our "Green Team"!
